WORK EXPERIENCE

Frontend Developer
D3 Studio

09/2023 - Present   *Amsterdam*

D3 Studio is a creative agency specializing in design, development, and strategy to deliver innovative digital experiences.

Achievements/Tasks

- Redesigned and implemented **core user interfaces** used by over 1,000 monthly users, resulting in a **~35% increase in engagement** through improved accessibility and responsiveness.
- Simplified complex workflows and improved interface clarity, **helping new users** navigate the app more easily and **reducing the time** needed to get up to speed.
- Optimized application performance by reducing bundle size and implementing lazy loading, leading to **30% faster load times** for key features.
- Collaborated with **2 designers and 3 developers** to enhance UI/UX components, which helped reduce **support tickets** and improve the user journey.
- Built and shipped new features in response to **recurring user feedback** points, improving usability and addressing common workflow pain points.

Frontend Developer
Sadrix

09/2022 - 08/2023   *Fereydunkenar*

Sadrix is an IT institution offering high-quality education and practical training to prepare students for success in the tech industry.

Achievements/Tasks

- Completed a rigorous curriculum **covering programming**, web development, and software engineering.
- Demonstrated expertise by actively participating in **hands-on training** sessions, leading to a 40% improvement in project completion rates.
- Collaborated on group projects, exhibiting leadership and problem-solving skills, resulting in **5 successful presentations** to industry professionals.
- Incorporated feedback from instructors to **enhance deliverables**, refining both **technical and analytical** competencies.

EDUCATION

Bachelor of Accounting
Shomal University

2014 - 2018   *Amol*

PROJECTS

Wizkids (03/2025)

- A modern web application for managing WizKids profiles. This project demonstrates authentication, state management with Redux Toolkit, and a sleek UI built using ShadCN design components and Tailwind CSS.
- https://github.com/javadkhosravii/wizkids 🔗

Recipe-finder (12/2024)

- A web app built with React.js that lets users search for recipes by ingredient or name, displaying results with images, ingredients, and instructions using a public API.
- https://github.com/javadkhosravii/recipe-finder 🔗

Quiz-App (01/2024)

- A responsive quiz application built with React.js and Tailwind CSS, featuring multiple-choice questions, real-time answer checking, and score tracking.
- https://github.com/javadkhosravii/Quiz-App-with-React.js 🔗
